Dear Judge,

The Proposed Final Judgement deal is an assault on the Justice Department's and America's integrity. Monopolies stifle entrepreneurship and are a blow to the good faith of the American people in the government to keep the market diverse and competitive. Without diversity and competition, the market will not grow and the people will be forced to follow the whim of one all powerful company. Further more, by allowing one company to engage in monopolistic activities, it not only shows that the Justice Department supports such actions, but that it will not be against future deals of this sort with companies in other areas of American society. The formation of this deal by the Justice Department shows that more importance is placed on one company than the growth of the economy and the benefit of that growth for the American People.
